

POWERPREMIER VOLTA UPGRADE

WINNEBAGO TRAVATO (2019-2024)

Upgrade to the **Lithionics' Smart Alternator** and seamlessly connect it to your existing Volta battery system.

UPGRADE COMPONENTS CAN BE PURCHASED SEPARATELY OR AS A COMPLETE PACKAGE

- ☐ PowerPremier Smart Alternator #85-301-48
- ☐ Dodge Promaster Bracket Kit #85-401-PM3.6 (includes belt)
- ☐ Lithionics-Volta Alternator Gateway #57-01-100 (includes harness)

MAXIMIZE POWER AND PERFORMANCE

Enhanced Performance

Optimal vehicle drivability and longer accessory belt life

Longer Battery Life

Enjoy extended battery lifespan and reduced maintenance

Fast Charging

Quickly recharge your batteries

Seamless Integration

The Gateway bridges the two systems - no programming required

Lithionics Smart Alternator

High-efficiency MOSFET design delivers up to 6,500W to your battery at cruise and 2,000W at idle.

Faster charging means shorter engine run times, quieter operation, and more time enjoying off-grid power.
